Industry expertise, global reach and streamlined methodology allows MRINetwork to find you the right position quickly and confidently.

Quality Assurance Manager

Quality Assurance Manager

Join a growing and progressive multi-plant food company as the Quality Assurance Manager in one of their multi-shift plants in the beautiful Northwest region of Arkansas. The successful candidate will be responsible for the QA organization and processes in this plant that makes ready to eat products.

This company offers a great benefit package and solid relocation assistance.

Duties:

- Develop and lead processes to insure high levels of GMP, Hygiene, and Sanitation
- Develop and manage the Quality Assurance Staff
- Manage the preparation and processes for Corporate and third party audits, insuring a high level of compliance and audit success
- Manage the HAACP, SPC, and Quality Systems necessary to insure the Manufacturing departments have the processes to produce high quality products
- Provide Quality training to the Manufacturing departments
- Prepare and manage the Department operating budget
- Manage the development of analytical methods to support new products

Requirements:

- Bachelor of Science degree, preferably in Food Science, microbiology, or chemistry
- Continuous Improvement expertise, such as TPM, Six Sigma, or similar is preferred
- At least 10 years experience Managing a Quality Assurance department in a USDA manufacturing environment
